The Index to Categories is a standardized listing of the products and services that will be featured in the upcoming 2018 *Nuclear News* Buyers Guide. This Index will assist you in either (a) filling out a New Listing form or (b) adding categories to your existing company listing. Products and services are listed alphabetically and are numerically coded.

New Listings and Verification Forms (for existing listings*) must be created and updated online. To add categories to your listing, simply click on the "Browse Categories" link within the listing page online and check the box next to the code numbers and product category descriptions and they will be added

to your company profile.

New categories—those added since the 2017 Index to Categories—are indicated with a dagger (†).

*Companies with existing listings will need a unique link in order to access their online listing. Look for multiple email reminders from <nnbg2018@ans.org> (starting in late January). If you do not receive an email, or the previous contact left your company, please send an email to the Advertising Department <advertising@ans.org> with the subject line "NNBG2018 link request" to obtain your custom URL.

Deadline: March 19

Remember, there is NO CHARGE for a company listing!
