## 2015/2016 Wall Maps of Commercial Nuclear Power Plants

The maps show the location of each commercial power reactor that is operable, under construction, or ordered as of February 28, 2015. Tabular information includes each reactor's generating capacity (in Net MWe), design type, date of commercial operation (actual or expected), and reactor supplier. Note: U.S. nuclear power plants are shown on the U.S. map only, not on either of the worldwide maps.

Actual map dimensions: 39.25" w x 26.75" h.
