

Comment Form Instructions

Comment Forms are provided along with a ballot for approval of Project Initiation Notification System (PINS) Forms, new standards, revisions to current standards, or reaffirmations. While not a requirement, the preferred method of returning comments is on the provided comment form in Word .doc format so that the working group can use the comment form to provide your response.

Comments may be returned using several methods:

1. Return Comment Forms via e-mail attachment along with your ballot or cover e-mail to standards@ans.org.
2. Return Comment Forms via fax along with your ballot to 708-579-8248.
3. Return Comment Forms via US mail along with your ballot to American Nuclear Society; 555 N. Kensington Ave.; La Grange Park, IL 60526; Attn: Standards Department. [Make sure to allow sufficient time as ballots close promptly on the due date.]
4. Minor comments can be summarized in an e-mail and forwarded to standards@ans.org.
