

# National Nuclear Science Week

*Get to Know Nuclear*

## January 24 - 28 2011

### What

National Nuclear Science Week is a national, broadly observed week-long celebration to focus local, regional and national interest on all aspects of nuclear science. Each day will provide for learning about the contributions, innovations and opportunities that can be found by exploring nuclear science.

**Monday** Focus Area: Get to Know Nuclear

**Tuesday** Focus Area: Careers

**Wednesday** Focus Area: Energy Generation

**Thursday** Focus Area: Safety

**Friday** Focus Area: Nuclear Medicine

Tools and ideas to encourage activities are provided at no charge online as well as other materials for distribution, education and celebration. Sponsorship opportunities are also available

Watch for updates!

### When

This recognition week will take place Monday-Friday on the fourth week of January every year. In 2011, National Nuclear Science Week will be January 24-28; in 2012 the recognition week will be January 23-27.

The National Nuclear Science Week could not take place without the support of partners. The following organizations generously supported the inaugural week in 2010; new national corporate supporters have the opportunity to participate in the upcoming National Nuclear Science Week.

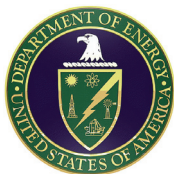

### National Founding Sponsor Partners

These organizations have made generous contribution to the education mission of the National Museum of Nuclear Science & History and are, by this commitment, included in the national recognition week.

### National Presenting Partner Organizations

National Presenting Partner organizations sponsor activities in their regions as well as contribute to the Museum coordination effort.

### National Corporate Supporters

Your participation will make a vital difference. Call for opportunities:

Jim Walther, Director, National Museum of Nuclear Science & History
